Summary

Computer Science Engineering student with a strong foundation in software development and full-stack web technologies. Proficient in Java, JavaScript, and React.js, with experience in building responsive applications and working with RESTful APIs and SQL databases. Demonstrates strong problem-solving skills, logical thinking, and the ability to quickly learn and adapt to new technologies. Committed to developing efficient, scalable solutions and contributing effectively within collaborative engineering teams

Technical Skills

Languages: Java, JavaScript, Python, SQL, HTML, CSS

Frameworks & Tools: Spring Boot, React.js, REST APIs, MySQL, Git, GitHub, Figma

Core Concepts: Data Structures Algorithms (Arrays, Strings, Trees, Dynamic Programming)

Problem Solving: Solved 150+ problems on LeetCode

Experience

Java Full Stack Developer Intern - BESANT TECHNOLOGY, Chennai May 2026 - Present

- Developed web applications using Java, Spring Boot, HTML, CSS, and JavaScript with responsive designs.
- Built RESTful APIs and integrated frontend and backend modules for reliable application communication.
- Managed MySQL databases, optimized SQL queries, and contributed to real-world full-stack development.

Java Full Stack Development Training - AISECT Powered by Capgemini Dec 2025 - May 2026

- Learned Java, Spring Boot, SQL, and REST APIs through structured training and practical assignments.
- Built backend applications using Spring Boot and tested REST APIs with Postman for seamless integration.
- Performed CRUD operations with MySQL and strengthened backend development through hands-on projects.

Projects

Banking Management System | Java Spring Boot | MySQL | Postman |

- Developed a Banking Management System using Java and MySQL to manage customer accounts and transactions.
- Implemented RESTful APIs and validated endpoints using Postman for reliable backend communication.
- Performed CRUD operations, transaction management, and database integration for secure banking services.

E-Commerce Database Management System | SQL | MySQL |

- Designed and implemented a relational database to manage products, customers, orders, carts, and payments.
- Wrote optimized SQL queries, joins, views, and stored procedures for efficient data retrieval and reporting.
- Enforced data integrity using primary keys, foreign keys, constraints, and normalization techniques.

Education

EASA College of Engineering and Technology Sep 2022 – May 2026

B.E Computer Science and Engineering CGPA : 9.0

CA Higher Secondary School Kuzhalmanam Jun 2019 – Apr 2021

Biology Science Percentage : 92%

Certificate

SQL (Intermediate) Certificate

By HackerRank

Career Essentials in GitHub Professional Certificate
